PROFILE

I'm a super curious and dedicated person with a passion for learning new things, including technology, human behavior, and personal growth. I'm committed to helping others and have a creative mind to solve problems. I'm honest, with a positive attitude, and determined which makes me a valuable asset for any company.

Having more than 3 years of experience in development, I faced many challenges in my professional experience, always excellently completing them. Also, I am always looking for ways to improve the product and deliver value to clients in the company that I'm working for.

EMPLOYMENT HISTORY

Apr 2022 — Present

WEB DEVELOPER, Envivent

California - Remote

As web developer, I'm responsible for websites and webapps creation using Drupal, HTML (twig), Javascript, CSS (SASS), React and Vue.

Tech Skills: React.js · Vue.js · Nuxt · JavaScript · Drupal · SASS · Styled-components · Tailwind · Docker · Twig · ZURB Foundation · WordPress

Jun 2021 — Mar 2022

SOFTWARE DEVELOPER, Intelie

RIO DE JANEIRO

Improve the real-time analysis software using React, Highcharts, and Styled-components. The daily work routine included SCRUM methodology (planning, daily, review, and retrospective) and usage of Typescript with React.JS and API integration.

Tech Skills: React.js · Typescript · SCRUM · Highcharts · API REST · React Hooks · Java · Styled-components

Oct 2020 — Jun 2021

FRONT-END DEVELOPER, Inforce

RIO DE JANEIRO

I was responsible for the creation of websites for real estate agencies which were integrated with the backend system following specific layouts.

Some functionalities include property search with filters, properties gallery, and blog.

Tech Skills: JavaScript · SASS · HTML · Twig · API REST · Laravel

EDUCATION

Sep 2023 — Sep 2025

Master's degree in Software Engineering, Porto University

Porto

This program develops the advanced technical and soft skills crucial for success in the software industry. It emphasizes teamwork, communication, leadership, and creative thinking.

My goal upon completion is to architect and manage large-scale software projects and when necessary, effectively lead IT teams.

Jan 2014 — Jun 2017

Bacharelor's in IT Management, ESTÁCIO DE SÁ

Rio de Janeiro

This program blends technical IT knowledge with essential business management skills, preparing graduates to lead successful IT projects and teams within organizations.
